### Descripción

The mouth-blown glass of this Serien Lighting Drum Suspension has a height of 11 cm and a diameter of 16 cm. This pendant lamp is suspended from a chrome-plated steel tube and can be individually set in its total height during assembly.

The Drum Suspension Tube S Short is offered in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. When dimmed, the version with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. In this way, the light not only becomes darker when dimmed down, but also changes its colour temperature from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white.
