Descripción

The Serien Lighting Slice2 Furniture USM emits its light simultaneously upwards and downwards. The light is emitted broadly upwards. Even at full power, it remains absolutely glare-free. Downwards, a prismatic acrylic glass pane distributes the light and reduces glare. The glare-free light upwards and downwards makes this lamp ideal for illuminating work surfaces.

The Slice2 Furniture USM is offered in the surfaces bright chrome, black, silver and white. In addition, the recessed table lamp is available in two versions:

- Version 1: with push button dimmer
- Version 2: with push button dimmer and motion and daylight sensor

The push button dimmer is integrated in the lamp head. A memory function saves the last selected brightness level and automatically sets it again the next time the lamp is switched on. The lamp with an adapter for USM Haller table systems has a colour temperature of 3,000 Kelvin warm white. On request, it is also available with 4,000 Kelvin white.
