

Knapstein

LARA-L134

Technical details

País de la Fabricación	 Alemania
fabricante	Knapstein
diseñador	Knapstein
año	2019
protección	IP20
Volumen de suministro	LED
material	metal
superficie	níquel
ajuste de altura	altura ajustable
Atenuación	control por movimientos
Potencia en vatios	42 W
LED	incluyendo
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	4.978
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
tipo	-
reemplazo de la bombilla:	en el fabricante / en la fabrica
altura total	73 - 180 cm
Dimensions	H 3,4 cm B 1,6 cm L 73 - 135 cm

Descripción

The Knapstein LARA-L134 can be adjusted in length by pulling or pushing the outer rails between 72.5 cm and 134.5 cm. The total height of the lamp can be adjusted between 73 cm and 180 cm at any time by pulling or lifting the lamp. The lamp can also be suspended at an angle. The pendant lamp emits light simultaneously upwards and downwards. The uplight and downlight can be separately switched and continuously dimmed by gesture control. The sensor area of the gesture control is located on the top of the middle pendulum rail. The lamp is switched on and off with a wiping hand movement in the sensor area. By holding the hand in the sensor area for a longer period of time, the light intensity can be continuously adjusted. The last light intensity setting is saved by the memory function and is automatically selected the next time the lamp is switched on.

The LARA-L134 is in matt nickel finish. The ceiling canopy is held by magnets. In addition to this pendant lamp, the LARA-L205 is also available from the series, adjustable in length between 107.4 cm and 205 cm. On request, the LARA is also available in other lengths or surfaces.
