Descripción

The Knapstein DORA-T is a table lamp with a rotating and tilting lamp head. A swivel joint is integrated at the base of the lamp. The lamp can also be tilted at will via a joint on the lamp arm. The DORA-T is available in black and matt nickel. An LED with a colour temperature of 2,900 Kelvin warm white is integrated into the lamp head. The table lamp can be switched and dimmed via a push button dimmer at the base of the lamp. A memory function saves the last light intensity setting and automatically sets it again the next time the lamp is switched on. In the event of a power failure, the lamp switches on automatically if it was previously switched on. It remains switched off if it was previously switched off.
