

Knapstein

LORA-P

Technical details

País de la Fabricación	 Alemania
fabricante	Knapstein
diseñador	Knapstein
año	2020
protección	IP20
Volumen de suministro	LED
Diámetro en cm	40 + 60
material	latón
superficie	níquel
ajuste de altura	altura ajustable
Atenuación	control por movimientos
LED	incluyendo
Indice de reproducción cromatica	>90
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Dimensiones del dosel	35 cm
reemplazo de la bombilla:	en el fabricante / en la fabrica
El rendimiento del sistema	1 x 33 + 1 x 50 Watt
Flujo total luminoso en lm	10.081
altura total	70 - 170 cm
Dimensions	Ø 40 + 60 cm

Descripción

The Knapstein LORA-P pendant lamp consists of two rings in the surface matt nickel-plated. One ring has a diameter of 40 cm, the other one 60 cm. Both rings emit their light simultaneously upwards and downwards. The uplight and downlight can be switched and dimmed separately for each ring via gesture control. The sensor area for the gesture control is located at the top or bottom of each ring. A wiping movement in the sensor area switches the light on or off. The light can be dimmed by holding the hand in the sensor area for a longer period.

Each ring of the LORA-P can be adjusted in height separately from the other up to approx. 80 cm. The height is infinitely variable by pulling or pushing a ring. The overall height of the lamp can therefore be adjusted between 70 cm and 170 cm. The Knapstein pendant lamp is also suitable for mounting on sloping ceilings. No screws are visible in the ceiling canopy because the canopy is held in place by magnets. LEDs with a colour temperature of 2,700 Kelvin extra warm white are integrated as light sources in the rings. On request, the LORA is also available in other sizes or surfaces.
