

Grupa Baluna Ceiling

Technical details

País de la Fabricación	 Croacia
fabricante	Grupa
protección	IP20
Volumen de suministro	LED 230 Volt
material	acero, vidrio Opal
superficie	negro
longitud del cable	500 cm
ajuste de altura	altura ajustable
Atenuación	en la cabeza de la lámpara
base/portalámparas	E14
Alimentación (máx. Watt)	6 Watt
LED	incluyendo
Dimensiones del dosel	9 cm
Diamètre de l'ombre	20 cm
reemplazo de la bombilla:	en el sitio mismo
Dimensions	H 136 - 203 cm

Descripción

The Grupa Baluna Ceiling is a height-adjustable ceiling lamp. It can be adjusted in height between 136 cm and 200 cm. Its glass shade can be rotated 360 degrees around its own axis. It is made of triple-coated and mouth-blown opal glass. The lamp shade has a diameter of 19.7 cm. Directly above the shade is a built-in dimmer at the end of the suspension.

The ceiling suspension of the Baluna Ceiling and the canopy are made of black, powder-coated steel. They are finished and assembled by hand. The lamp is available in other finishes on request. The Baluna Ceiling can be connected via a supply cable with a length of 500 cm. When mounted on a ceiling connection, the supply cable can also be removed if required.
