### Descripción

The Grupa Arigato Wall Long is a wall lamp with a rotating and swivelling joint arm. The jointed arm consists of two parts, each with a length of 55 cm. The lamp shade can be rotated by 360 degrees and swivelled by 125 degrees. A diffuser at the bottom of the shade allows glare-free light to be emitted downwards. The shade diameter is 22.8 cm. The Arigato Wall Long can be connected via an included supply cable or directly to a wall connection. An on/off switch is located on the wall bracket. The Arigato Wall Long is available in the surfaces black or white matt powder-coated. It is also offered in other finishes on request. The lamp has an E27 socket that can be operated with halogen lamps or LED retrofits. Grupa also offers the Arigato Wall Short with a shorter jointed arm from the series. In addition, wall lamps with two articulated arms or a simple lamp arm are also available.
