Descripción

The Foscarini Spokes 3 MyLight is a pendant lamp with a diameter of 61 cm. It is 42 cm high. Its lamp shade consists of vertical spokes made of round steel tubes. The light is emitted by the lamp directly downwards and into the room. At the same time, the lamp is also illuminated, which creates games of light and shadow on the lamp. Two LEDs are integrated as illuminants. The electrical supply cable is transparent and not visible from the outside, as it runs along a spoke in the lamp shade. The Foscarini pendant lamp is available in white, copper, graphite, black and gold.

The Spokes 3 MyLight is regulated and dimmed via Bluetooth with Casambi App by smartphone or tablet (IOS, Android). In this way, it can be regulated in light intensity from 0-100% without the need for new devices, wiring, switches or internet connections. The lamp only needs to be installed and connected to a smartphone or tablet via Bluetooth. Additional configurations by qualified personnel are not necessary. The pendant lamp is also offered by Foscarini as a lamp that is non-dimmable or DALI dimmable.
