

LDM

Santo Terra

Version

- aluminio
- bronce
- negro
- blanco

Technical details

País de la Fabricación	 Alemania
fabricante	LDM
protección	IP20
Volumen de suministro	LED
material	aluminio, cromo
angulo del rayo	124 grados
Atenuación	Sensor dimmer en la cabeza
Potencia en vatios	14,5 W
LED	incluyendo
Indice de reproduccion cromatica	>95
El flujo luminoso en lm	600
Temperatura de color en grados Kelvin	2.850 blanco cálido
Dimensiones del soporte de la lámpara	25 cm
cabeza del alumbrado masa	longitud 55 cm
reemplazo de la bombilla:	en el fabricante / en la fabrica
Dimensions	H 160 cm

Descripción

The LDM Santo Terra is an adjustable floor lamp. Its lamp head has a length of 55 cm and can be swivelled by 180 degrees at the joint as well as rotated by 350 degrees. With a practical handle on the lamp head, the light can be directed exactly where it is needed. The lamp head is also individually height-adjustable along the lamp rod.

The Santo Terra is available in aluminum polished and powder-coated in bronze, white matt or black matt. The lamp head has the corresponding surface. The lamp rod is always supplied in polished chrome. The external spiral cable is a special design element that flexibly adapts to any desired height of the lamp head.

The Santo Terra by LDM is operated with an integrated LED that has a colour temperature of 2,850 Kelvin warm white. With a sensor dimmer on top of the lamp head, the floor lamp can be switched and dimmed without touching it. The lamp is switched on or off with a wiping hand movement over the sensor. To dim the light, the hand is held directly over the sensor for a longer period of time.
