

Domus

Julii Wall Arm Lamp

Technical details

País de la Fabricación	 Alemania
fabricante	Domus
año	2018
protección	IP20
Volumen de suministro	Leuchtmittel/ Bulb
Proyección en cm	24
material	Lunopal, madera, metal, Textil
Color del cable	gris
longitud del cable	400 cm
Atenuación	cable de dimmer
base/portaámparas	G9
Color de la pantalla	blanco
Diamètre de l'ombre	36 cm
Altura de pantalla	30 cm
El rendimiento del sistema	4 x 33 Watt (max)

Descripción

A beautiful alternative to a wall lamp is the Julii pendant lamp with a white wall arm. The shapely, 24 cm long wall arm made of metal is attached to the wall with a narrow solid oak cuboid. A 4-metre-long textile-covered cable in silver-grey functions as a supply line to the lampshade, with which the pendant height of the lampshade can be adjusted. A hand dimmer on the supply cable of the lamp regulates the brightness. The hand dimmer is located 200 cm behind the light point of the lamp. The cleverly intertwined shade elements made of Lunopal are reminiscent of airy, towering mountains of clouds. Lunopal is a high-quality shade material developed by Domus. This material is highly thermally resistant and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The white lampshade of the Domus Julii wall lamp is 30 cm high and has a diameter of 36 cm. This lamp has four G9 sockets and is operated with bulbs with a maximum power of 33 watts. Due to the freely selectable mounting and suspension height of the lamp, the position of the lampshade can vary. Thanks to the plug-in cable, the lamp can be placed freely, be it above a side table, a sideboard or next to a bed. This opens up completely new design possibilities.
