Descripción

Thanks to the simple suspension with the help of a ring, the six lamp heads of the Domus Pit 6 can be adjusted independently of each other, infinitely variable in their inclination and can be rotated to the left and right. If all lamp heads are in horizontal position, the lamp has a height of approx. 15 cm, if the lamp heads are in vertical position, the height is approx. 30 cm. The diameter of the lamp changes accordingly from a minimum of 45 cm to a maximum of 70 cm. The tapered lamp heads of the Domus Pit 6 as well as the holder to which they are attached are made of metal, optionally in black or white. The textile cable, which serves as a supply line, is available in the cable colours silver-grey and red. The height-adjustable pendant lamp is suspended from three thin steel cables. The pendant lamp Domus Pit 6 has six E27 sockets and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
