### Descripción

The Arturo Alvarez Venus VE06 is a wall lamp with a shell-shaped lamp shade. The lamp shade is made of a lacquered, particularly resistant stainless steel metal mesh. This stainless steel metal mesh is a translucent and flexible mesh made of metal, which is formed into the desired shape and structure. The lamp is available in white and black surfaces. The lamp shade and wall bracket are each supplied in the matching colour.

The Venus VE06 is 27 cm high, 40 cm wide and 7 cm deep. It is operated with an integrated LED which has a colour temperature of 2,700 Kelvin extra warm white. This LED can be dimmed on site with a trailing edge phase dimmer.
