Descripción

The Domus Croiz floor lamp is 150 cm high in total. Its lamp shade can be adjusted in height along the lamp rod. Its lamp rod and base are made of white oak. The German manufacturer Domus has developed the high-quality material Lunopal for its lamp shades. Lunopal is white transparent and looks like fine Japanese paper. It is highly thermally resistant, so it is withstanding temperatures of up to 100°C. The completely environmentally friendly material is UV-resistant, washable and does not fade. A foot dimmer is integrated on the supply line of the floor lamp. The Croiz has an E27 socket and can be operated with replaceable LEDs (retrofit).
