Descripción

The Arturo Alvarez Cabana CB04 is a pendant lamp made of aluminum. The lamp shade is made using the 3D knitting process, a technique that is widespread in the textile industry but rarely used in the lighting industry. This allows seamless lamp shades to be produced in three dimensions without excess fabric. The pendant lamp produces a very pleasant, homogeneous illumination.

The Cabana CB04 is offered in the shade colours beige, orange and blue electric. The lamp shade has a diameter of 60 cm and a height of 50 cm. The pendant lamp has an E27 socket that is suitable for replaceable LEDs (retrofits). When mounted, the pendant lamp can be individually suspended in its total height.
