Technical details

País de la Fabricación	 Alemania
fabricante	Knapstein
año	2024
Profundidad en cm	8,5
Diámetro en cm	60
material	Acryl, Metall
Atenuación	dimnable con control de fase inversa y con reguladores de control de fase
Potencia en vatios	56 W
LED #	inclusive
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	6266
Temperatura de color en grados Kelvin	2.700 blanco cálido extra
protección	IP20
Volumen de suministro	LED
Dimensions	Ø 60 cm

Descripción

The Knapstein ASTRA-60 has a curved metal cover with freely combinable outer structures. This metal cover is placed on a magnet attached to the mounting plate. By turning the cover on the magnet, the distance between the cover and the wall or ceiling can be changed by up to approx. 35 mm at any time, making it easy to customise the light outlet. The LED lamp offers an almost loss-free and glare-free light emission and allows flexible brightness control. The Knapstein ASTRA-60 emits indirect light, has a diameter of 60 cm and is 8.5 cm deep. This lamp can be mounted on the wall or ceiling. It is also possible to connect several ASTRA lamps together if an overlap is desired. The Knapstein ASTRA-60 is available in several surfaces and freely combinable external structures.
