

Ingo Maurer

Lampampe

Technical details

Pays de fabrication	 Allemagne
fabricant	Ingo Maurer
concepteur	Maurer, Ingo
année	1980
protection	IP20
Contenu de la livraison	Leuchtmittel/Bulb
matériel	métal, papier
longueur de câble	200 cm
base/version	E27
Transférabilité	sur la conduire
Puissance (max. Watt)	100 Watt
Diamètre de l'ombre	75 cm
Dimensions	H 76 cm

Description

The Ingo Maurer Lampampe is an elegant and variable table lamp. The lamp body consists of Japanese paper. By screwing the screw ring at the lamp stand, the base out of paper will be slightly compressed and crumpled. Thus the classical shape of the table lamp is broken and transformed into a new contemporary form. As the look of the paper base is different every time, every version of this Ingo Maurer light is unique. Due to the crumpled paper a warm and comfortable lighting is created inviting to relax.
