

Vibia

Set 7762

Oberfläche

- mink mat
- blanc mat

Technical details

Pays de fabrication	 Espagne
fabricant	Vibia
concepteur	Xuclà
protection	IP20
Contenu de la livraison	Ampoule
Profondeur en cm	10
matériel	aluminium, polycarbonate, verre borosilicate
atténuation	0-10V dimmable
Puissance en Watt	9 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	1.269
La température de couleur en Kelvin	2.700 extra blanc chaud
Dimensions	H 39 cm B 36 cm

Description

The Vibia Set 7762 is a combination of a single LED Wall lamp and three mobile reflecting elements made of borosilicate glass. At the bottom of the lamp a modern 9 Watt LED is housed which radiates its light upwards. The three upper parts of the Set 7762 can be pivoted about 360°. So the light of the lower part is guided differently and there is a fascinating game of light and shadow.

The Vibia Set 7762 is designed by Xuclà and is available by Vibia in the surfaces white matt and mink-matt. As a single lamp the Set 7762 is already a very nice impression on the wall. But in combination with other lights Set gets an even better advantage. Then fascinating light objects arise on the wall. The wall light can be dimmed on site at 0-10 volts. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white.
