<b>Flux lumineux en lm</b>	1.269
<b>La température de couleur en Kelvin</b>	2.700 extra blanc chaud
<b>Dimensions</b>	H 64 cm   B 54 cm

## Description

The Vibia Set 7764 is the largest wall lamp in this lamp series. It consists of a single LED Wall lamp and five, mobile reflective elements in different lengths. At the bottom of the lamp a modern LED is housed, which radiates its light upwards. The five upper parts of the Set 7764 are rotated 360°. So the light of the lower part is guided differently and there is a fascinating game of light and shadow on your wall repeatedly.

The Vibia Set 7764 is designed by Xuclà and is available by Vibia in the surfaces white matt and mink-matt. As a single lamp the Set 7764 already is impressible, but in combination with other lights you can explore new creations. Then fascinating light objects arise on the wall. In Set 7764 a LED is included. This can be dimmed on site at 0-10 volts. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white.
