atténuation	gradable avec variateur à coupure de phase et à commande de phase
LED	y compris
Indice de rendu des couleurs	>97
remplacement des ampoules :	sur le site meme

Description

This Serien Lighting Annex LED ceiling light has a clear, mouth-blown glass shade and a reflector made of opal acrylic glass. The light is emitted directly downwards and also evenly diffused to the side through the opal reflector. Only a small part of the light is also emitted upwards.

The Annex Ceiling LED is available in three sizes: Small with 14 cm diameter, Medium with 22 cm diameter and Large with 27.5 cm diameter. In each size, this lamp is operated with an integrated LED. Depending on the size, the integrated LED has a different output. This lamp is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. As standard, the ceiling lamp can be dimmed on site with a trailing edge and / or leading edge phase dimmer.

On request, the Medium and Large versions are also available as DALI dimmable versions. These require a 5-wire mains supply cable. In addition to this ceiling lamp, lamps with other reflectors from the Annex series are also offered. These have a different light distribution. In addition, the Annex Ceiling is also available with sockets for halogen lamps.
