### Description

The Ingo Maurer My New Flame emits light reminiscent of a burning candle. However, two displays with 128 LEDs each are integrated in the lamp. One display is integrated on each side of the table lamp. For the programming of the LEDs, video material of real flames was used. To operate the My New Flame, four rechargeable AA batteries are required, which are not included. These are charged via the included 150 cm long USB cable. The table lamp can so be operated wirelessly via the charged batteries. The Ingo Maurer lamp is available in the colours black, white and red. A toggle switch on the base of the lamp is used to switch the lamp on and off. With a button on the LEDs, the light can also be dimmed continuously.
