Description

The Oluce Lens 151 is a wall lamp by Francesco Rota. The lamp shade and the wall mounting are made of metal bent into shape. The lamp emits its light simultaneously upwards and downwards. Thereby, a light effect is created on the wall above and below. Oluce offers the Lens 151 in the surfaces anodised bronze and gold-plated. The wall lamp is 16 cm high and has a width of 41 cm. It is operated with two R7s high-voltage halogen bulbs.
