All lamp shades are made of aluminum. The shade surface is always matt black. From the inside, the shade is available in the versions gold, copper and silver. The cable of all versions has a length of 170 cm and can be shortened if necessary.

The socket is E27 and can be operated with high voltage halogen or LED retrofits. The 40 or 60 cm versions require one high-voltage lamp, the 80 or 100 cm versions require three high-voltage lamps. The lamps are always placed in the middle of the shade.
