### Description

The Vibia Pin 1670 floor lamp has two rods of different heights. The two lamp heads can be adjusted separately so that the light can be constantly refocused. Each lamp head can be rotated by 350 degrees and tilted by an angle of maximum 45 degrees. This floor lamp is available in the surfaces white, black, green and cream-white. The designer Ichiro Iwasaki explores in the Pin series concepts that combine continuity and comfort. The lights of this series are characterized by a minimalist, functional and subtle design.
