Description

The Marset Discoco 35 is a pendant lamp consisting of 35 discs. The discs are made of injection moulded ABS and are anchored to a chrome ball in the core of the lamp. The largest part of the light is emitted directly downwards, only a part of the light is also emitted glare-free to the sides. The discs act as reflectors so that the lamp also illuminates itself. This pendant lamp has a diameter of 35 cm and is available in the surfaces white glossy, black/gold glossy, beige matt and grey matt. The cable with a maximum length of 200 cm can be shortened if required. LED Retrofit lamps can be used as light sources.
