

Arturo_Alvarez

Aimei

Technical details

Pays de fabrication	 Espagne
fabricant	Arturo_Alvarez
concepteur	Arturo Alvarez
année	2019
protection	IP20
Contenu de la livraison	LED
matériel	acier, bois, verre
couleur de câble	transparent
réglage de la hauteur	hauteur déterminée
atténuation	dimmerable sur place avec commande gradateur de phase inverse
Puissance en Watt	8 W
LED	y compris
Flux lumineux en lm	960
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	12 cm
hauteur totale	200 cm
Dimensions	H 80 cm B 80 cm L 80 cm

Description

The Arturo Alvarez Aimei pendant lamp is made of ash wood. Ash wood is a particularly flexible and versatile material. By means of handcrafted processes, curved and durable surfaces can be produced using this resistant and high-quality material. A spherical glass diffuser reduces glare and spreads the emitted light homogeneously through the spaces between the wooden rods into the room. The lamp is a total of 80 cm high. It has a length and a width of 80 cm each. The pendant lamp is attached to a transparent cable. The nickel-plated steel canopy has a diameter of 12 cm. Including the suspension, the lamp has a total height of 200 cm, the cable can be shortened if required. The light source integrated in the Aimei is an LED with a colour temperature of 2,700 Kelvin extra warm white, which can be dimmed on site with a trailing edge phase dimmer. The pendant lamp is also available on request with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
