

Mawa

Wittenberg 4.0 Telescope ceiling lamp LED

Oberfläche

- chrome
- noir
- blanc

Technical details

Pays de fabrication	 Allemagne
fabricant	Mawa
concepteur	Jan Dinnebieer
concepteur 2	mawa engineering
protection	IP20
Contenu de la livraison	LED
Diamètre en cm	8
matériel	aluminium, métal
angle du faisceau	38 degrees
atténuation	gradable avec variateur à coupure de phase et à commande de phase
Puissance en Watt	12,7 W
LED	y compris
Indice de rendu des couleurs	95
Flux lumineux en lm	1.100
La température de couleur en Kelvin	2.700 extra blanc chaud
remplacement des ampoules :	sur le site meme
répartition de la lumière	directement
Dimensions	H 12 cm Ø 8 cm

Description

The Mawa Wittenberg 4.0 Telescope ceiling lamp LED has an adjustable spotlight head. This lamp head can be folded out by 90 degrees and rotated by 365 degrees. The light emission area of the lamp head is particularly large and well glare-free. Neither screws nor cables are visible in the compact design. The lamp is available with powder-coated black matt or white matt and glossy chrome surfaces.

The Wittenberg 4.0 Telescope Ceiling Light LED is operated with an LED that has a colour temperature of 2,700 Kelvin extra warm white. On request, the LED is offered with 3,000 Kelvin warm white or 4,000 Kelvin white. The light can be dimmed on site with a leading or trailing edge phase dimmer. In this version, the lamp has a total height of 11.8 cm and a diameter of 7.6 cm. On request, the ceiling light is also available as a DALI dimmable version. This optional version has a height of 19.6 cm and a diameter of 7.6 cm.

The radiator has a beam angle of 38 degrees. The beam angle determines the angle at which the light from an LED spotlight is emitted. With a larger beam angle, the light is distributed over a larger area. Optionally, the lamp can also be ordered with a beam angle of 12 or 24 degrees in the field Order Comment.
