Description

The Serien Lighting Reflex2 Ceiling M300 distributes its light onto a prismatic reflector surface inside the ceiling light. From there, the light is reflected into the room absolutely glare-free. The reflector is available in matt white, gold, silver or white. Each reflector creates a different lighting effect for this ceiling light.

The Reflex2 Ceiling M300 is operated with a powerful LED and has a colour temperature of 2700 Kelvin extra warm white. On request, this ceiling lamp is also available with 3,000 Kelvin warm white or as a Tunable White version. In the lamp with Tunable White technology, the light can be changed from incandescent warm to cool white. On request, the lamp is also available dimmable with DALI, 0-10 Volt or with Casambi module.
