Technical details

Pays de fabrication	 Allemagne
fabricant	Knapstein
concepteur	Knapstein
année	2019
protection	IP20
Contenu de la livraison	LED
Diamètre en cm	40
matériel	métal
réglage de la hauteur	hauteur déterminée
atténuation	controlé gestuel
Puissance en Watt	33 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	4.522
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	24 cm
remplacement des ampoules :	chez le fabricant / a l'usine
hauteur totale	30 - 250 cm
Dimensions	H 3,4 cm Ø 40 cm

Description

The Knapstein SVEA-40 is a ring-shaped pendant lamp with a diameter of 40 cm. The lamp emits its light simultaneously upwards and downwards. The uplight and downlight can be switched separately by gesture control and can also be dimmed continuously. The sensor area for gesture control is located at the top and bottom of the lamp. The light is switched on or off with a wiping hand movement in the sensor area. To dim the lamp continuously, hold your hand in the sensor area for a longer period of time. The luminous intensity set for uplight or downlight is saved by the memory function and automatically readjusted the next time the light is switched on.

The SVEA-40 is available in nickel-plated matt and gold-coloured lacquered surfaces. The pendant lamp by Knapstein is height-determinable between 30 cm and 250 cm with the stop sleeves on the underside of the ceiling canopy. By pushing in the stop sleeves on the ceiling canopy, the cables of the lamp can be pushed or pulled into the desired position. From the series, the SVEA-L40 is also offered with a stepless height adjustment by pulling or lifting the lamp itself. The lamp is also available with a diameter of 60 cm or 80 cm. On request, the SVEA is also offered in other lengths or surfaces.
