

Knapstein

LINDA-152

Oberfläche

- nickel
- noir
- bronze

Technical details

Pays de fabrication	 Allemagne
fabricant	Knapstein
concepteur	Knapstein
année	2020
protection	IP20
Contenu de la livraison	LED
matériel	laiton
réglage de la hauteur	réglable en hauteur
atténuation	controle gestuel
Puissance en Watt	72 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	8.580
La température de couleur en Kelvin	2.200 - 3.000 réglable
remplacement des ampoules :	chez le fabricant / a l'usine
hauteur totale	73 - 180 cm
Dimensions	H 3,4 cm B 1,6 cm L 152 cm

Description

The Knapstein LINDA-152 pendant lamp has a length of 152 cm. By lifting or pulling the lamp, the total height of the lamp can be adjusted between 73 cm and 180 cm at any time. The lamp can also be suspended at an angle. The pendant lamp emits its light simultaneously upwards and downwards. The uplight and downlight can be switched and dimmed separately by gesture control. In addition, the light colour can be adjusted to produce a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved by the memory function and are automatically adjusted again the next time the device is switched on.

The sensor area for gesture control is located in the centre of the lamp. The lamp is switched on or off with a wiping hand movement in the sensor area. If the hand is held longer in the sensor area, the luminous intensity can be adjusted. Holding the hand in the sensor area for a longer period of time again also allows the desired light colour to be adjusted. The LINDA-152 is available with a matt nickel, black or bronze effect finish. The series also includes pendant lamps with a length of 92 cm, 112 cm or 132 cm. On request, the LINDA is also available in other lengths or surfaces.
