

Knapstein

NORA

Oberfläche

- nickel
- bronze

Technical details

Pays de fabrication	 Allemagne
fabricant	Knapstein
concepteur	Knapstein
année	2020
protection	IP20
Contenu de la livraison	LED
matériel	laiton
atténuation	controle gestuel
Indice de rendu des couleurs	>90
La température de couleur en Kelvin	2.200 - 3.000 réglable
Pied de lampe dimensions	27 cm
Les performances du système	2 x 36 Watt
Flux lumineux total en LM	8.580
Dimensions	H 160 cm

Description

The Knapstein NORA floor lamp has a rotating and swivelling light rod, which can be repositioned again and again via a ball joint on the lamp base. The lamp emits light both directly to the front and indirectly, e.g. to the wall. The two light sources can be switched separately and infinitely dimmed by gesture control. It is also possible to use gesture control to adjust the light colour for both light sources separately to produce a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved by the memory function and are automatically adjusted again the next time the light source is switched on. The NORA from Knapstein has a height of 160 cm and is operated with two LEDs. The floor lamp is available with matt nickel and bronze effect surfaces.
