### Description

The Grupa Arigato Wall has a rotating and swivelling jointed arm. The jointed arm consists of two parts, each with a length of 35 cm. The lamp shade can be rotated by 360 degrees and swivelled by 125 degrees. At the bottom of the shade is a diffuser, thanks to which the light is emitted downwards without glare. The shade diameter is 22.8 cm. The Arigato wall lamp can be connected via a provided supply line or directly to a wall connection. An on/off switch is integrated on the wall mount. The Arigato Wall by Grupa is offered in the surfaces black or white matt powder-coated. On request, it is also available in other finishes. The lamp can be operated with an E27 halogen lamp or LED retrofit. Wall lamps with two jointed arms, with a longer jointed arm or a simple lamp arm are also available from the series.
