Description

The Steng Ax-LED Wall Lamp has a vertical light rod with a height of 53.5 cm. The lamp rod can be tilted continuously by 20 degrees and can thus be aligned from a vertical, straight to an inclined position. The wall lamp emits its light indirectly onto the wall behind it.

The Ax-LED is made of high-quality metal and is available in the following surfaces: satinised nickel, glossy nickel, white and black. Both the white and the black surface have a matt fine structure. The wall mounting is 6.4 cm high and has a depth of 10 cm. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant.
