<b>Pied de lampe dimensions</b>	25 cm
<b>tête de luminaire masse</b>	longueur 55 cm
<b>remplacement des ampoules :</b>	chez le fabricant / a l'usine
<b>Dimensions</b>	H 160 cm

### Description

The LDM Santo Terra is an adjustable floor lamp. Its lamp head has a length of 55 cm and can be swivelled by 180 degrees at the joint as well as rotated by 350 degrees. With a practical handle on the lamp head, the light can be directed exactly where it is needed. The lamp head is also individually height-adjustable along the lamp rod.

The Santo Terra is available in aluminum polished and powder-coated in bronze, white matt or black matt. The lamp head has the corresponding surface. The lamp rod is always supplied in polished chrome. The external spiral cable is a special design element that flexibly adapts to any desired height of the lamp head.

The Santo Terra by LDM is operated with an integrated LED that has a colour temperature of 2,850 Kelvin warm white. With a sensor dimmer on top of the lamp head, the floor lamp can be switched and dimmed without touching it. The lamp is switched on or off with a wiping hand movement over the sensor. To dim the light, the hand is held directly over the sensor for a longer period of time.
