

# Lichtlauf

## Archie B

### Technical details

<b>Pays de fabrication</b>	 Allemagne
<b>fabricant</b>	Lichtlauf
<b>concepteur</b>	Christoph Matthias
<b>année</b>	2013
<b>protection</b>	IP20
<b>Contenu de la livraison</b>	LED
<b>matériel</b>	aluminium
<b>surface</b>	aluminium poli
<b>couleur de câble</b>	transparent
<b>longueur de câble</b>	200 cm
<b>LED</b>	y compris
<b>Diamètre de l'ombre</b>	5 cm
<b>Les performances du système</b>	3 x 1 Watt

### Description

The Archie B. by the German manufacturer Lichtlauf is a lamp that can create a play of colour shadows. Three aluminium spheres emit red, green and blue light; when brought together, a clear white light is created. When this falls on an object, the white light creates colourful shadows - a magical moment. Three precisely adjustable polished aluminium spheres rest on rubber rings, so the coloured shadows can be aligned very precisely and create atmospheric effects. The diameter of each polished aluminium ball of the Archie B. by Lichtlauf is 5 cm. The transparent cable, which serves as a supply line, is 200 cm long. This LED lamp has an on/off switch on the distribution box. Align the spheres in such a way that together they produce a large-area white light on the illuminated surface (e.g. wall or ceiling). The edges may be coloured. Place an object between the spheres and the illuminated surface and let yourself be surprised by the colour shadows.
