Description

The Steng Big Brigg 2 LED wall lamp emits its light upwards and downwards at the same time. The light emitted upwards is emitted onto the wall behind the lamp and is reflected from there into the room. Thanks to the high-quality reflector technology, the light emission is glare-free. The Big Brigg 2 has a width of 20 cm and a height of 6 cm. Its depth is 30 cm.

The Big Brigg 2 is offered in the surfaces aluminum and white matt. All surfaces have a fine structure. Other RAL colours are also available on request. The integrated LED has a power of 20 watts and features a very good colour rendering with a high colour rendering index of Ra >90.

The Big Brigg 2 wall lamp is offered in two versions: dimmable on site with a trailing edge and / or leading edge phase dimmer or with an integrated Casambi module. With a Casambi module, the light can be operated by smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching and dimming several suitable lights separately in groups or switching the lamp at specific times via a timer. The Big Brigg 2 is also available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white.
