

Lichtlauf

eNormajeane 125

Oberfläche

- noir / cuivre
- blanc
- blanc / cuivre

Technical details

Pays de fabrication	 Allemagne
fabricant	Lichtlauf
année	2015
protection	IP20
Contenu de la livraison	LED
matériel	acier, aluminium
couleur de câble	transparent
longueur de câble	200 cm
réglage de la hauteur	réglable en hauteur
atténuation	dimmerable sur place avec commande gradateur de phase inverse
LED	y compris
Indice de rendu des couleurs	90
La température de couleur en Kelvin	3.000 blanc chaud
remplacement des ampoules :	chez le fabricant / a l'usine
Les performances du système	2 x 12 Watt
hauteur totale	200 cm
Dimensions	H 12 cm B 30 cm L 125 cm

Description

Like a dress in the updraft above an underground shaft, the eNormajeane by Lichtlauf floats above the table and sends powerful, soft light downwards. Copper, the colour contrast between top and bottom is what creates the tension. Each lamp, individually shaped by hand, is unique. eNormajeane is used wherever larger, long tables are to be complemented with a light sculpture. The lampshade made of aluminium is available in brown-black or white on the upper side. The underside of the lampshade is hand-applied with copper leaf metal or in white. The two integrated LEDs, each with an output of 12 watts, have a colour temperature of 3,000 Kelvin warm white. The light of the integrated LEDs of this dimmable lamp is characterised by a very good colour rendering with a high colour rendering index of Ra 90. The lampshade of the eNormajeane is 125 cm long, 30 cm wide and approx. 12 cm high. Due to the handcrafted manufacturing process, there may be irregularities in the leaf-finished surface. The total height of the lamp is max. 200 cm, the rectangular ceiling suspension is 70 cm long, 5 cm wide and 3 cm high. The height of the eNormajeane 125 is adjusted directly on the two wire ropes with which the lamp is suspended from the ceiling. The eNormajeane 125 by Lichtlauf is also available with a 160 cm long lampshade.
