Cambo CM104

Schirmfarbe

- noir
- blanc

Technical details

Pays de fabrication	 Espagne
fabricant	Arturo_Alvarez
concepteur	cenlitrosmetrocastrado
année	2021
protection	IP20
Contenu de la livraison	LED
matériel	acier, acier inoxydable, aluminium, bois
couleur de câble	noir
réglage de la hauteur	hauteur déterminée
atténuation	dimmerable sur place avec commande gradateur de phase inverse
Puissance en Watt	7 W
LED	y compris
Flux lumineux en lm	850
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	12 cm
Diamètre de l'ombre	24 cm
hauteur totale	150 cm
Dimensions	H 45 cm B 26 cm

Description

The Arturo Alvarez Cambo CM104 is a pendant lamp with a lamp shade made of lacquered stainless steel mesh. This lamp shade is connected to a structure made of beech wood. The lamp shade is offered in the colours white and black. It has a diameter of 24 cm. The beech wood structure is 45 cm high. The lamp has a maximum width of 26 cm. It has a maximum total height of 150 cm, its black cable can be shortened if necessary. The Cambo CM104 is operated with an integrated LED that has a colour temperature of 2,700 Kelvin extra warm white. The pendant lamp can be dimmed on site. A diffuser at the bottom of the lamp shade reduces the glare of the emitted light.

Cambo is the new pendant light that emerged from the collaboration of Arturo Alvarez with the design studio cenlitrosmetrocastrado. The word Cambo (of Galician origin) refers to a piece of wood with a hook at one end, an artisanal element in Galician tradition. Inspired by nature and the environment, cenlitrosmetrocastrado designed the Cambo system based on the natural growth of plants, the branching and ramification of trees. The vision of the two designers Ricardo Tubio and Xabier Rilo of the natural environment has led to a modular system that allows different designs to be configured with the same elements. Cambo is made of a beech wood structure with a water-based lacquer that allows the material to be shown in its most natural form. This special structure is combined with the lacquered stainless steel mesh of the lamp shade, which houses the integrated LED light source.
