<b>Contenu de la livraison</b>	Leuchtmittel/Bulb
<b>matériel</b>	bois, Lunopal, zinc
<b>atténuation</b>	dimmerable sur place
<b>base/version</b>	E27

## Description

The Domus Stella ceiling light is offered in two sizes: The smaller lamp can also be used as a wall lamp. It is 33 cm long and 31 cm wide. Its height is 10 cm. The larger lamp has a length of 41 cm and a width of 40 cm. It is 12 cm high.

Lunopal, being used as the material for the lamp shade, was specially designed by the German manufacturer Domus for its lamp shades. It is particularly environmentally friendly, reminiscent of fine Japanese paper and does not fade. Both Stella lamps have E27 sockets that can also be operated with replaceable LEDs (retrofit).
