

Holtkötter

Supernova GT

Oberfläche

- aluminium
- laiton
- platine
- noir
- blanc

Technical details

Pays de fabrication	 Allemagne
fabricant	Holtkötter
concepteur	Holtkötter
année	2023
Projection en cm	56,5
matériel	Aluminium
réglage de la hauteur	réglable en hauteur
Puissance en Watt	16 W
LED #	inclus
Indice de rendu des couleurs	>90
Flux lumineux en lm	2500
La température de couleur en Kelvin	2.200-2.850
protection	IP20
Contenu de la livraison	LED
atténuation	Variateur tactile sur pied de lampe
Pied de lampe dimensions	18 cm
tête de luminaire masse	18 cm
remplacement des ampoules :	chez le fabricant / a l'usine

Description

With 2500 lumens and a colour rendering index of >90, the Holtkötter Supernova GT leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in any direction, allows the light to be directed in any direction. The light rod of the Holtkötter Supernova GT can also be tilted by 15° - 60°. The touch dimmer with memory function on the base of the lamp allows the brightness to be continuously adjusted. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer. The Holtkötter Supernova GT is available in matt aluminium, anodised brass, platinum, white and black. In the anodised brass model, the luminaire rod is black; in all other models, the lamp rod and luminaire head have the same finish.
