Omschrijving

The Drop 4 small designed by Next is a table lamp out of the Liquid Light series. It is the smaller version of the Drop 4 which is also available in one version for outdoor use. The optics is an aesthetic symbiosis of light and water. This luminaire is an eye-catcher to every room looking like a drop rising out of the ground. Different atmospheres are possible due to a cord dimmer. There are further luminaires out of this series on offer all perfectly combinable.
