### Omschrijving

The Vibia Cosmos 2516 is a lamp consisting of four round, disc-shaped lamp shades made of polycarbonate in different sizes and colours. The smallest lamp shade measures 19 cm in diameter and is in matt dark brown, the medium-sized is 27 cm in diameter as well as light green matt and the two large lamp shades finally are 48 cm in size as well as white matt.

The four lamp shades can be suspended until a maximum of 200 cm. Four modern 4.5 Watt LED and two 1 Watt LED are included. The Cosmos 2516 is a six-light pendant lamp which is reminiscent of a constellation of various moons. The light can be dimmed by an external dimmer (DALI, push or 1-10 Volt). A with Casambi module dimmable version is also available on request. The lamp with Casambi module can be operated via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer. The lamp was created by Lievore, Altherr and Molina.
