### Omschrijving

The Vibia Fold Surface 4204 is available in colours off-white (cream-white), brown and green. Arik Levy created this wall light for which he chose as the material of the lamp body aluminum. The geometric wall mounted light seems to spring from four individual lamps, but, in truth, it is only one lamp body of four contiguous lighting elements. For this wall lamp two elements are placed side by side, one element is centered under and the last one is arranged obliquely on the top left of the two elements juxtaposed. As light sources, eight efficient 2.1 watt LEDs are included. By placing multiple wall lights of this series next to each other, there are many possible combinations.
