Omschrijving

The Vibia Suite 6031 is so functional that it makes everywhere a good impression - whether next to the bed, as unusual bedside table, next to the couch or as a shelf in a corner. This is a multifunctional design object written by Jordi Vilardell and Meritxell Vidal.

It has a pedestal and also a wall mount, three shelf boards, a USB charging port and six efficient LEDs. On the top shelf board a glass diffuser is additionally installed, which is reminiscent of an illuminated stone with dimmable light. In this glass diffuser another LED is integrated. Whether a floor lamp, wall lamp, table lamp or function furniture, it is all possible. The Vibia Suite 6031 is available in brown and white. At the bottom of the shelf below the USB connection are the switches for switching the lamp on and off and for dimming the glass diffuser.
