Omschrijving

The Vibia Set 7751 is designed by Xuclà. As individual light, the Set 7751 makes already a very good impression on the wall. In combination with other lamps, the Set 7751 is very imposing. Then fascinating light objects arise on the wall. The wall light is available in white and mink.

The Set 7751 is a combination of an one-light LED wall light and two mobile, reflecting elements. In the lower part of the light a 9 watt LED is housed, which radiates its light upwards. The two upper parts of the set 7751 are rotated 360°. So the light of the lower part can always derive differently and a game of light and shadow is created. The wall lamp can be dimmed on site with 0-10 volts.
