LED	inclusief
Kleurweergave-index	>90
Lichtstroom in lm	1.269
Kleurtemperatuur in Kelvin	2.700 extra warm wit
Dimensions	H 64 cm B 54 cm

Omschrijving

The Vibia Set 7764 is the largest wall lamp in this lamp series. It consists of a single LED Wall lamp and five, mobile reflective elements in different lengths. At the bottom of the lamp a modern LED is housed, which radiates its light upwards. The five upper parts of the Set 7764 are rotated 360°. So the light of the lower part is guided differently and there is a fascinating game of light and shadow on your wall repeatedly.

The Vibia Set 7764 is designed by Xuclà and is available by Vibia in the surfaces white matt and mink-matt. As a single lamp the Set 7764 already is impressive, but in combination with other lights you can explore new creations. Then fascinating light objects arise on the wall. In Set 7764 a LED is included. This can be dimmed on site at 0-10 volts. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white.
