Omschrijving

The Vibia 45 ° 8251 is an idea from the designer Victor Carrasco. The tubular lamp is available by Vibia in the surfaces white matt, black matt or bronze (black oxide). The diffuser is made of polycarbonate and is interchangeable. In each case, a diffuser in white and orange is included - this allows to create different lighting scenes. The lamp uses a 6.1 watt LED. Of all the Vibia 45 ° lamps, the 8251 is the medium-sized ceiling light. The light can be dimmed on site (1-10 Volt or Push). Apart from this standard version, also a DALI dimmable version is offered on request. On request, the lamp is also available with 3,000 Kelvin warm white or 3,500 Kelvin white.
