Omschrijving

The Next Cosmo is a futuristic pendant lamp in white PE with silver caps. The Cosmo's appearance changes with every new perspective. A circle with six light knots dissolves into the third dimension, emitting its even, glare-reff light over lobbies, foyers, halls and every other architectural space designed with energy-efficiency and extra ordinary forms in mind.

It is also available as the Cosmo Outdoor for swimming pools, gardens, inner courtyards and all objects identical in sky. For both versions, there are two dimmable LED versions available which has different colour temperature.
