H 190 cm

Omschrijving

The Ingo Maurer Ilios is characterised by its playful ease. A little round "moon" is held between two flexible bars out of stainless steel. The "Moon" is a white satin slightly curved glass. There is a fluorescent red isolating key at the socket of the Ilios. This floor lamp is available in two versions differing in their colours. The light intensity is controllable via a cord transformer with slide control. Silver and black are offered as colours for the floor lamp.
