Omschrijving

A striking design feature of the Serien Lighting Twin is its versatile adjustable scissor mechanism. If the distance between the lamp shades is changed, the overall height of the lamp also changes. The position of the two shades always remains horizontal to each other. The lamp is suspended from two black, textile-sheathed cables.

The light from the two lamp shades radiates directly downwards and gently into the room. The Twin is available with a lamp body in bright chrome or black lacquer. Its two lamp shades are offered in acrylic glass or mouth-blown glass. The shades are in opal white. This pendant lamp by Serien Lighting has two G9 sockets and can also be operated with replaceable LEDs (retrofit).
