Omschrijving

This Luceplan Costanza table light is a built-in light that is installed in a table with a fixing pin. It is height-adjustable with a telescopic rod between 76 cm and 110 cm and equipped with an on / off switch on the socket. The Costanza Table Fixing Pin Telescopic On / Off switch is offered with different colours for the shade. The frame is in aluminum. Like the other lamps in this collection, the design for this table lamp was designed by Paolo Rizzato in the year 1986.
